## MESSAGE FROM DEAN

**Prof. (Dr.) K.K. Rout**

Professor & Dean

Welcome to the School of Agriculture at DRIEMS University, where we nurture the future stewards of our planet's agriculture and food systems. At our school, we are committed to excellence in education, research, and community engagement in agriculture. Our programs are designed to equip our students with hands-on learning through modern laboratories, cutting-edge research opportunities and industry exposures and partnerships.

Our strength lies in the dedication of our faculty, the enthusiasm and creativity of our students, and the strong support of our academic and industry partners. Together, we have built a reputation as a trusted destination for quality agricultural education to tackle the challenges and opportunities of the agricultural sector in the 21st century.

We offer comprehensive undergraduate B.Sc. (Hons.) Agriculture a four year degree programme. We take pride in maintaining high academic standards, continuously updating our curriculum following ICAR guidelines, and fostering innovation and best practices in teaching and learning.

I warmly welcome all students to join us on this transformative journey and wish you great success in your academic and professional pursuits.

## ABOUT THE SCHOOL

The School of Agriculture at DRIEMS University is established directly in line with the 6th Deans' Committee recommendations and the National Education Policy (NEP), reflecting a modern, outcome-based approach to agricultural education. The school is emerging as a centre of excellence in agricultural education and research, nurturing future-ready professionals through regular exposure to reputed institutions, agro-industries, and real farming conditions. Supported by a dedicated core faculty and interdisciplinary contributions across the University, we ensure holistic student development.

# VISION & MISSION

## VISION

To be globally recognised as locally relevant Farm institute providing leading edge education, to produce graduates who will be adaptable citizens with innovative & motivated force to serve the nation by advancing, sharing & applying knowledge & skill.

## Mission

- To provide basic and strategic knowledge on agricultural science through rigorous academic course curriculum
- To develop trained professionals for high end field demonstration and potential experiential learning for effective hands-on training of the students
- To equip the students with practical skills, ethical values and leadership qualities essential for the improving income of farming community and agricultural industries.

## Why join DRIEMS Agriculture ?

- ✓ Lush Green Rural Campus of 90+ acres
- ✓ Highly qualified faculty & skilled staff
- ✓ Model Instructional Farm-cum-Technopark
- ✓ Advanced modern labs (as per ICAR specifications)
- ✓ Smart classrooms
- ✓ Experiential Learning/skilling units
- ✓ Regular exposure visits to agro-industries and research institutes
- ✓ University scholarships for meritorious students.
- ✓ Central/state govt. scholarships for all eligible students
- ✓ Free Transportation Facility
- ✓ State of the art sports complex
- ✓ Modern state of the art library block

# OUR PROGRAMMES

## B.Sc.(Hons.) Agriculture

🕒 Duration : 4 Years

### About the programme

The B.Sc. (Hons.) Agriculture is a comprehensive four-year, credit-based degree integrating crop production, protection, and improvement with value-addition strategies. Aligned with ICAR 6th Deans' Committee guidelines and international standards, it balances theoretical knowledge with hands-on practice across Agronomy, Horticulture, and Genetics, supported by Biotechnology and Agrometeorology. The program offers early exposure through skill-based courses and field visits, followed by academic flexibility in the seventh semester through diverse electives, preparing graduates for advanced research and global careers.

### Eligibility

Candidates seeking admission to the B.Sc. (Hons.) Agriculture programme must have passed the +2 Science (XII) Examination with Physics, Chemistry, and Mathematics and/or Biology (PCM/PCB/PCMB), securing at least 50% marks (40% for SC and ST). Admission to the programme is made through a DRIEMS University Entrance Test (DRUET). The final selection of candidates is however, based on both the DRUET score and career marks. Lateral entry is possible as per NEP-2020 guidelines.

## Fee Structure for the Academic Year 2026-27

Sl No	Fee Details	Amount (₹)
01	B.Sc.(Hons.) Agriculture course fees per year. (A special scholarship of Rs. 10,000/- for students per year with 1st Division (60% and above) in 12th Exam.)	1,70,000 /-
02	Exam registration fee per year	7,000 /-
03	Hostel fee per year	75,000 /-
04	Hostel caution money one time (Refundable)	7,500 /-
05	Training and career counseling fee per year	5,000 /-
06	Admission Counseling fee	2,000 /-
07	Two (02) sets Uniform	1,500 /-

# Laboratories

The school has excellent laboratories in all core disciplines of Agricultural Sciences such as Agronomy, Entomology, Plant Breeding and Genetics, Plant Pathology, Soil Science and Horticulture etc.

**We believe in learning by doing..**

**Hands on Training for Students on farm & allied enterprises**

# Our Instructional Farm & Student Crop Cafeteria

Following the curriculum of ICAR, to cater the needs of students' hands-on training and field exposure, Instructional farms are developed with crop cafeteria for vegetables, Flowers, Cereals, Pulses and oil seeds.

## FIELD CROPS

## VEGETABLE CROPS

Hands-on training in Machine Learning and AI with a dedicated facility for advanced weather data acquisition and cutting-edge data analytics skills development

# Student Life @DRIEMS

DRIEMS University fosters a vibrant student community through diverse clubs, initiatives, and its annual fest **“Adyantika”**. Students engage in cultural, technical, social, and sports activities that build creativity, teamwork, and leadership. These opportunities help them explore passions, develop skills, and grow personally and professionally.

# Students Exposure

A number of industrial and institutional visits have been undertaken to enhance student exposure and strengthen industry linkage. These include premier research institutes such as ICAR-CRRI, IIWM, CTCRI, CIFA, CHES, and Krishi Vigyan Kendras, along with livestock and fodder-silage units of the Government of Odisha. Such visits provide hands-on experience in advanced agricultural practices, technologies, and integrated farming systems. They play a vital role in bridging academic learning with real-world industry applications.

At the core, we believe in learning by seeing.
